# MESSAGE FROM PRESIDENT

2

We are pleased to introduce this report detailing our progress for the year gone by.

DESIRE Society champions the right for children born with HIV/AIDS to receive the best care. We know that the care that CLHA receive in the initial phase of the infection/disease is vital to determining their chances of survival as well as their long-term development.

We have been giving basic core need services to provide DESIRE children with vast opportunities.

It is basically to fulfill opportunities & have a fair chance to become self-reliant, educated, protection from harm, and most importantly, inclusion in society. Over the past year, we have also continued to expand our reach and impact of our Child Nutrition & Healthcare Programme, providing life-changing medical care and nutrition to CLHA hailing from disadvantaged communities across our five locations in India. We regularly evaluate the impact and effectiveness of our work through a process of measurement and evaluation led by our senior staff and is reviewed by our Board members periodically.

As you engage with this report, you will learn more about DESIRE Society's work to promote health and strengthen services to help enable CLHA to live life in all its fullness. Most importantly, you will meet a few of our little champions whose lives are forever transformed.

Whilst so much has been achieved over the last year - and the years before that- we are fully aware of our responsibilities to CLHA and we shall continue to work hard to deliver lasting changes for those children who need our help. There is much work to be done to achieve our mission that every baby born with HIV has the best chance of survival and quality of life; and we are dedicated to our goal.

Our supporters are vital to us for reaching our goal of helping CLHA. We are particularly pleased to have brought on board new supporters this year as well as to have sustained the support of many of our longstanding individual supporters, families, community groups, companies and organizations, whose ongoing commitment to our work is truly humbling – thank you. Through our fundraising activities, we aim to improve the financial resilience and sustainability of DESIRE Society so that we can help as many CLHA as possible.

We are blessed to have a team of hardworking and committed staff members who have become our pillar of strength. Together, as we enter another year, let us resolve to strive hard to make our initiatives and programmes work efficiently and in the best interests of the people for whom the services are meant. There is a lot of work to be done, but as we join hands and pool in our collective resources and energies, we are sure to defeat HIV/AIDS in the coming years.

**G. RAVI BABU**

# MESSAGE FROM VICE PRESIDENT

3

The world is making progress on improving life for those affected by HIV/AIDS, but there are still thousands of children who do not have access to nutritious food, healthcare, or a decent education. Medical care and socio-economic and psychosocial support have to be provided to all those children in need of it.

For close to two decades now, DESIRE Society has been doing its part to reach out to CLHA and make difference to their lives. We have always believed in the power of an integrated approach to transform the lives of these children. We have reached out to deliver care to children who would otherwise not have access to it.

The success stories of our children give us hope and confidence that with passion and commitment, the children's lives can be transformed for good.

The journey we have undertaken requires tireless commitment and true passion. Through it all, DESIRE team has demonstrated unshakable determination and optimism as we continue forward. We always go the extra mile to deliver excellence and seek improvement in all we do. We are humbled and inspired to rise to the challenge together today and tomorrow. Our idealism is revitalized by a commitment to fight the global epidemic. Stepping onto another year, let us renew our resolve to fight this scourge with even greater determination and dedication.

As we begin a new financial year, we look forward to forge new partnerships and strengthen existing ones. We would also work to expand our geographic reach to impact the lives of more CLHA across India.

Among those we would like to thank are our dedicated board members as well as our amazing staff who have again pulled out all the stops to ensure we are making the biggest difference possible for CLHA. Finally, we would like to place on record our sincere thanks to the organisations and individuals that have supported our work over the past year and who continue to make such a difference to our work. On behalf of the board of trustees, an impassioned staff, and our children - thank you for making the world brighter with your generosity.

As we move forward, our values of accountability, dedication and trust are only going to get more important. We are deeply convinced that no matter what circumstances we face, we can strive towards meeting our goal of supporting more CLHA and help them to succeed in life with the generous support of all of you.

I take this opportunity to thank everyone for all their efforts throughout the year and wish yet another successful year ahead!

**E.M. SUBHASH**

# MESSAGES OF MEDICAL TEAM

4

**DR. L. RAJ KUMAR**  
Chief Medical Officer

**DR. Y. SUNIL KUMAR**  
Medical Officer

We, the DESIRE medical team, make sure that each of our children is able to have a normal life outside of this disease (AIDS) that takes so much from them. We are driven by our desire to ensure that all our CLHA have what is needed to become desirable citizens. Their stories touch something inside each of us that is more than the profession that we chose. The kind of suffering that they endure and the courage that most of them exhibit is extraordinary and inspiring. It is a privilege to serve these children and witness how their lives change for the better over time.

I am continuously amazed by the strength and resilience of the CLHA once they start to deal with their condition positively. The complexities of living with a chronic like AIDS is daunting. Persuading a child to accept and deal with the disease and cooperate in the treatment process is achieved in small, but significant steps. Measuring the progress of those steps towards child well-being is vital to help ensure our healthcare programmes are meeting the needs of children. It is always humbling and heart-warming to witness that our care, patience and encouragement make such a big difference in their lives.

Working with the children at DESIRE Society has so far been both challenging and enriching. We seek to enable our CLHA to enjoy life in all its fullness and to see a generation breaking free of the associated problems that submerge them. I love the children I work with and it is this love that has tied me to DESIRE Society for so many years. I enjoy making our children smile, holding their hands, talking to them, listening to their stories and creating lasting memories with them.

While the challenge of the disease (HIV/AIDS) makes the work I do so important, the compelling characteristics of our children help me to sustain my engagement with them. I cannot help but admire and respect their courage and optimism amidst all the struggles of living with HIV/AIDS. However, their physical condition cannot limit their indomitable spirits. I feel proud recounting the accomplishments and achievements of our children, how they have gone from strength to strength over the years. I feel humbled to be part of a committed team that helps them to deal with their condition. I am proud of what we have accomplished together as we help light up lives, and I am even more optimistic about the opportunities ahead as we persevere towards the goal of sustained well-being of vulnerable children.

# MESSAGE FROM HEAD OF COMMUNICATIONS

5

The amazing, magical thing about the work that DESIRE Society is doing is that you can literally witness how the organization 'changes' lives. It has been a tremendously humbling experience to witness our care model reach out to one of the most marginalized groups of children- Children living with HIV/AIDS (CLHA).

HIV/AIDS wreaks heartbreak and trauma on infected children and their families. Social ostracism is still prevalent and adds to the emotional turmoil. Orphaned and vulnerable children whom no one wants to adopt because they were struck by HIV/ AIDS even before they were born, presents a poignant sight.

**DR. NEELIMA ATAL MOHANTY**

We remain committed to driving improvements in outcomes for CLHA and providing a voice to every one of them. Our children are at the heart of everything we do. We listen to our children and communicate with them in the most appropriate way. We provide protection and shelter to them, always support and encourage them like a family and do everything to ensure a sustainable future for them. We understand the emotional demands of the disease and how the children struggle to cope with it. This understanding helps us to add compassion and empathy to the care we strive to offer to our children.

Over the years, we have built upon successful programming adaptations and flexible, rights-based approaches to optimize progress on every measure of health and development of our children. The impact of our activities is evident from the progress of our children. We not only reach out, we transform their lives through our Institutional Care Home programme.

Stories like that of ***Sreemala Sai who used to be very weak, cry a lot and did not mingle with other children has transformed into a super active 8 year old boy who is living the life of a normal happy child and considers DESIRE Society his home***, fill my heart with great joy and gratitude. ***Adhilakshmi, who was admitted to DESIRE home when she was very young, is now pursuing her engineering degree from CMR College, Hyderabad. Once a shy little girl, she is now poised and confident beyond her years.*** Many such success stories of our children, from the youngest to the oldest, indeed make us proud.

As we look forward to the future, our vision to transform young lives remains unchanged. We have learnt that the road ahead is not without its challenges, but let us not forget the bigger picture and brighter narrative. We shall continue to build on the impact of our model that serves as dynamic road map for how we achieve our vision and measure progress.

# CONTEXT

As of today, India stands at the crossroads in its battle against HIV/AIDS. Concerted policies and strategic interventions have led to significant decline in annual new infections (ANI) and AIDS related deaths (ARD) in India. Yet, the nation is still far from ending AIDS as a public health threat.

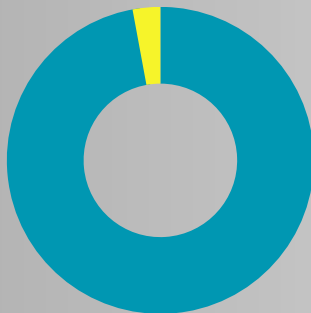

## Estimates on Key Indicators

**Number of PLHIV- 24,01,284**

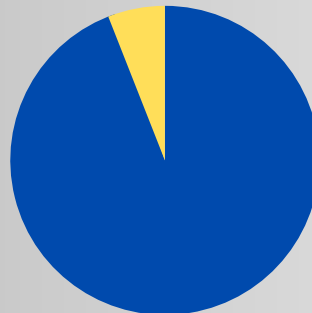

Children (<15 years)  
69,808

Adult (15+ years)  
23,31,476

**ARD- 41,968**

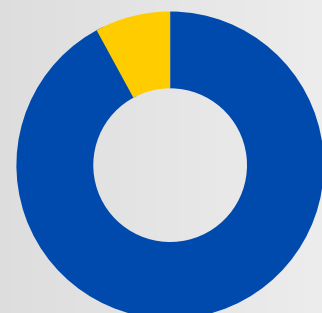

Children (<15 years)  
2506

Adults (15+ years)  
39,462

**ANI- 63,000**

Children (<15 years)  
5000

Adult (15+ years)  
58000

**The vertical transmission rate for HIV is 24% PMTCT need - 20,612**

**Final MTCT Rate of HIV - 24.25%**

Top 3 states accounting for the highest PMTCT need are Maharashtra (12.9%), Bihar (11.9%), and Uttar Pradesh (10.6%).

In 2021, the top three States with the highest adult HIV prevalence are Mizoram (2.70%), Nagaland (1.36%), and Manipur (1.05%) in the north-east region. Other States with HIV prevalence higher than the national average (0.21%) are Andhra Pradesh (0.67%), Telangana (0.47%), Karnataka (0.46%) in the southern region, Meghalaya (0.42%) in the north-east region and Maharashtra (0.33%) in the western region. Delhi, Goa, and Puducherry have adult HIV prevalence estimated at 0.31% each.

## Children & HIV/AIDS

A well-known and calamitous effect of HIV/AIDS is the vast numbers of children orphaned by the disease. These children endure overwhelming and largely unmitigated losses. Neither words nor statistics can adequately capture the human tragedy of children grieving for dying or dead parents, stigmatized by society through association with HIV/AIDS, plunged into economic crisis and insecurity by their parents' death and struggling without services or support systems in impoverished communities.

Not only orphans, socio-cultural factors such as low health literacy, poverty, HIV-related stigma, limited health infrastructure, gender norms, and traditional practices can present complex challenges to the delivery and expansion of HIV prevention, care, and treatment services to CLHA hailing from impoverished communities.

# DESIRE Society : PROFILE

7

## About Us

DESIRE Society was founded in the year 2004 and registered in 2005 as a Not For Profit organization under the Andhra Pradesh Societies Registration Act, 2001 (Act no 35 or, 2001). The organization was established to give orphan and vulnerable children (OVC) the care they deserve. The society focuses on Children living with HIV/AIDS (CLHA), children abandoned by one or both parents, children of sex workers, truck drivers and children who have been abused & belong to poor socio-economic conditions.

Started in Hyderabad, DESIRE Society today operates in five states of India with high HIV prevalence- Maharashtra, Andhra Pradesh, Karnataka, Telangana and Delhi-NCR. DESIRE has grown into India's leading NGO catering to CLHA and other OVC.

DESIRE's core programmes are-Institutional Care Home, Child Nutrition & Health Care Camp and Summer Camp.

## Vision

To reduce the stigma and discrimination associated with HIV/AIDS and lessen the death cases among the people living with HIV/AIDS in India

## Mission

To improve the lives of children struggling with the impact of the HIV/AIDS pandemic in India

We provide shelter, food, treatment, education and psycho-social support.

## Aim

To reduce the spread of HIV and meet the challenges in the field of AIDS

We are committed to preventing HIV infection, facilitating access to treatment, care and support & lessening the impact of AIDS.

## Objectives

- To reduce the morbidity and mortality of CLHA
- To offer stigma free voluntary counselling and treatment facilities for CLHA
- To help CLHAs access antiretroviral drugs from government and monitor them for drug adherence
- To support orphan and vulnerable children infected and affected with HIV/AIDS through Institutional Care Homes (ICH)
- To advocate for a prejudice free society for the children living with HIV/AIDS

# WHY US?

8

## Legal Status

- registered Not for profit organization under Andhra Pradesh Societies Registration Act, 1971 vide no. 1918/2005
- registered under FCRA (Foreign Contribution Regulation Act 1977) to receive foreign funds vide no.010290034
- registered under Section 80G Act of 1961, India for Income tax Exemption
- registered under Section 12A of the Income Tax Act, 1961 for tax exemption
- registered as a 501(c)(3) tax-exempt charity based organization in the USA (DESIRE Society Inc)

## Credibility

Our credibility is established through our compliance to rigorous standards. We publish “Annual report” on our website every year and share the same with our stakeholders whoever wants to know about our work. Auditors from Sudhakar Chartered Account Group have been conducting our audit since inception of organization. The audit refers to different level of checking by concerned auditor team. The audit reports are published on our website. Information about our organization and work is available across public domains. Print/digital media has paved way to highlight work-sphere of events & activities undertaken by DESIRE Society.

## Value Proposition:

**Accountability Dedication Equitability Inclusiveness Integrity Transparency Trust**

## Goal Oriented

DESIRE Society’s strategy of comprehensive development of CLHA is aligned with the Sustainable Development Goals (SDGs), the country’s NACP as well as with the Convention of the Rights of the Child (CRC). Guided by our vision, we invest in the future citizens of the nation to contribute to the goal of nation building. Our programmes are designed in a way to ensure scalability, replicability and sustainability while positively impacting the lives of thousands of children living with HIV/AIDS.

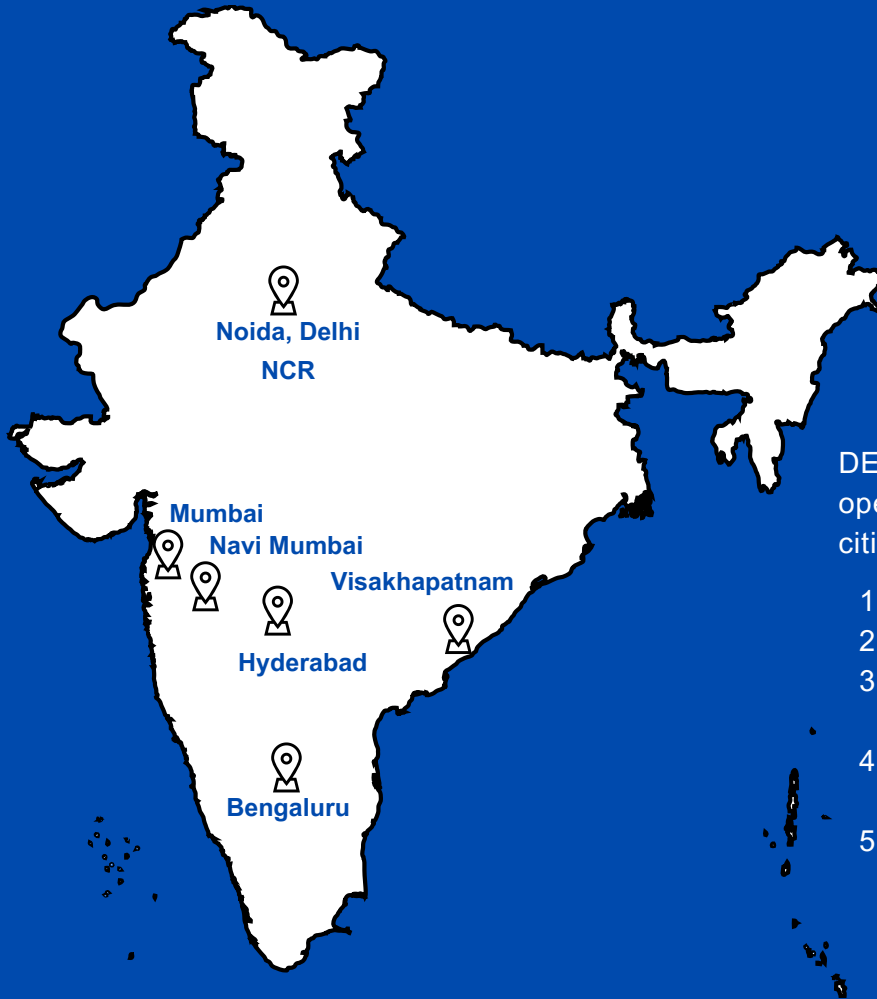

## Organizational Effectiveness

We continuously monitor the effectiveness of our operations, structures and processes. Our organizational effectiveness is evident from our professional management of the staff and office, the Institutional Care homes, strategic planning (programmes and finances) and documentation process. We ensure that policies and procedures are reflection of our requirements.

# OUR GEOGRAPHICAL PRESENCE

9

DESIRE Society currently operates in the following 5 cities in India:

1. Hyderabad in Telangana
2. Bengaluru in Karnataka
3. Mumbai & Navi Mumbai in Maharashtra
4. Visakhapatnam in Andhra Pradesh
5. Noida in Delhi National Capital Region (NCR)

DESIRE Society Inc- the USA chapter of DESIRE Society was incorporated in the year 2010 with a motive of uplifting the lives of children living with HIV/AIDS in India. DESIRE Society Inc is a 501(c)(3) tax-exempt charitable organization in Atlanta in the state of Georgia in the USA.

# INSTITUTIONAL CARE HOME

10

## *Our Homes: Nests of Hope*

DESIRE Society initiated the concept of Institutional Care homes to provide comprehensive care to CLHA. DESIRE institutional homes nurture children with individual care and family environment. We provide children a warm loving environment where they feel accepted and not judged, feel a sense of freedom, feel a sense of possibility, and most importantly feel a sense of belongingness to country. In DESIRE homes children are cared for in a loving and safe family environment, with safe places to play, they are encouraged to develop positive relationships and participate in decisions that affect their lives. We prepare our children to become self-confident and self-reliant adults in the long run.

Our Comprehensive, Customized, Critical and Compassionate services are designed to positively affect emotional functioning, social functioning, self-esteem, physical well-being of children. We have hope and a vision for their future.

Our child well-being targets provide a clear framework for measuring results on some of the core aspects of our work – in health and nutrition, education, child protection and sense of purpose and worth.

**Total Beneficiaries  
reached: 300 CLHA**

## *Our Children: Special in own unique ways*

Most of our CLHA are OVCs- orphans, semi-orphans, children abandoned by one or both parents, children of sex workers, truck drivers, victims of abuse, and children from poor families. Our care homes have children upto 18 years. Beyond 18 years, the after care home structure is established in Hyderabad. Today, we are proud to say that many of our "DESIRE" children are pursuing higher education, technical and job-oriented courses while enlisted in after care home system.

**Social Security**

Social security is ensured by fostering connection and belongingness, sense of identity, sense of community and creating safe spaces & opportunities for children to grow in order to have choices

**Shelter & Protection**

Professionally managed Institutional Care Homes providing secure and homely environment

**Food & Nutrition**

Carefully designed weekly menu consisting of a healthy and balanced diet including recommended daily allowance (RDA) of micro-macro nutrients.

**DESIRE  
Society's  
Comprehensive  
Care Model**

**Psychosocial Support**

Team of experts who provide psychosocial support to all our special children through individual and group counselling support to help children overcome the psychosocial impact of HIV/AIDS

**Education**

Access to quality education, lifelong learning opportunities and essential life skills so that CLHA can succeed in life

**Healthcare**

Multidisciplinary care team (MDCT) comprising members who go far beyond their professional promise, building relationships and providing warm-hearted, high-quality care

# CHILD NUTRITION & HEALTH CARE

13

**Total Beneficiaries reached: 900 CLHA**

Socio-cultural factors such as low health literacy, poverty, HIV-related stigma, limited health infrastructure, gender norms, and traditional practices can present complex challenges to the delivery and expansion of HIV prevention, care, and treatment services to CLHA.

A CD 4 cell estimation test is performed to assess the stage of disease progression and treatment of CLHA. The importance of our Child Nutrition and Health Care Programme is to diagnose HIV/AIDS in children and provide treatment. The impact of the treatment can be seen within few months. There is a dramatic positive change in the physical condition with the child putting on weight, looking healthier and more cheerful, as he/she resumes a normal life.

DESIRE Society reaches out to CLHA from disadvantaged communities & provide the following services:

- Diagnostics and related technologies for HIV/AIDS, related opportunistic infections & other conditions
- Enumeration of CD4 cells in HIV children monitored
- Initiation of ART & other drugs
- Psychosocial support
- Monthly Supplementary Nutrition Kits

We conduct health camps to raise awareness against the stigma surrounding HIV and AIDS, disseminate information on the disease and how to combat it. We diagnose HIV infections in infants and children & convince parents of HIV positive children to avail medical treatments that can dramatically enhance their children's quality of life and chances of survival. We also provide travel and logistical support for the children and their parents.

# SUMMER CAMP

15

Total CLHA  
reached: 1200

Like every year, summer camps were organized by DESIRE Society in the month of June across all the cities in which it operates. Magic show, puppet show, yoga, tattoo art, dance show, fashion show, air balloon sliding, toy car riding, camel riding and trampolining were organized to entertain the participating children.

We schedule rest times, mix up high and low-energy activities and manage medication and treatment times. Our medical teams coordinate with health care providers, parents and caregivers to reduce the risk of health challenges and keep children healthy and safe. Much of the health-related work happens in the background so that campers can have a joyful camp experience.

Our camps are recreation focused and act as ideal platform for children to learn and have fun at the same time. Activities such as outdoor games, sports, music, arts and crafts, talent shows, educational programmes aimed at building life skills of children are conducted at the camps. Our camps enable children to develop confidence, independence, social skills, leadership skills, empathy and inspire them to try new things.

Living with a serious medical condition like HIV/AIDS can be frightening and isolating for children. So we organize these summer camps to create opportunities for CLHA to think beyond serious illness and discover joy, confidence and a new world of possibilities.

# WAY FORWARD

32

Despite the progress India has made in fighting HIV/AIDS, there are still thousands of CLHA in the country who require medical care. DESIRE Society wants that every baby born with HIV/AIDS in India has the best chance of survival and quality of life. We have been learning and adapting and we are seeing results. Moving forward we want to expand our model to meet the needs of CLHA in other cities & states. We will continue to work tirelessly to reach as many children as possible, to ensure more CLHA can shake off the shackles of HIV/AIDS and are empowered to experience life in all its fullness. We shall forge ahead with commitment to NACP's (National AIDS Control Programme) goals and United Nations' Sustainable Development Goals (SDG) 3.3 of ending the HIV/AIDS epidemic as a public health threat by 2030.

**DESIRE's Dream Project:** We want all our children to become independent and successful and settle down in life. Our dream project is to build a residential complex for our children when they grow up especially to begin with this facility at Hyderabad location. The residential complex shall have residential flats with amenities like baby care centres, community hall, clinic with IP facility, emergency medical staff quarters, playground and mini-market. We envision building the first such residential complex on about 10 acres of land close to our Care Home in Hyderabad. Once implemented, this model shall be replicated across all our locations.

# ACKNOWLEDGEMENT

33

We are so grateful for the continued support of our stakeholder groups who have helped us to achieve our performance goals.

As ever, we are immensely grateful to all of DESIRE Society's wonderful donors without whom we simply would not be able to achieve what we do for our CLHA.

We would like to pay special tribute to DESIRE's staff members who have gone above and beyond all year in their commitment to make the biggest difference for our children. In particular, our medical team's dedication to ensure that ever DESIRE child born has the best chance of survival and quality of life is truly humbling.

We are enormously grateful to our team of DESIRE volunteers for their valuable contribution across many different areas of our work- be it through supporting our children, organizing special events or raising awareness about DESIRE Society.

The Society also thanks the Statutory Auditors Sudhakar Chartered Account Group for having conducted the periodical and annual audit work.

We take this opportunity to acknowledge and appreciate the value of our board members' support and efficient leadership.

We would like to recognize, appreciate and laud the contributions, big or small, made by all the wonderful people and organizations associated with DESIRE Society.
